

Project Implementation Status Report - Phase 2

Report Period: July 15 - July 21

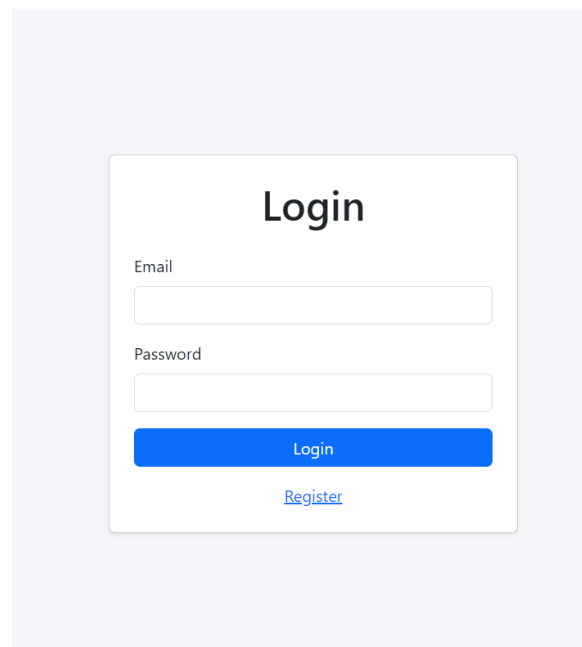

Accomplishments:

During the reporting period, significant strides were made in advancing the 'Social Connect' App:

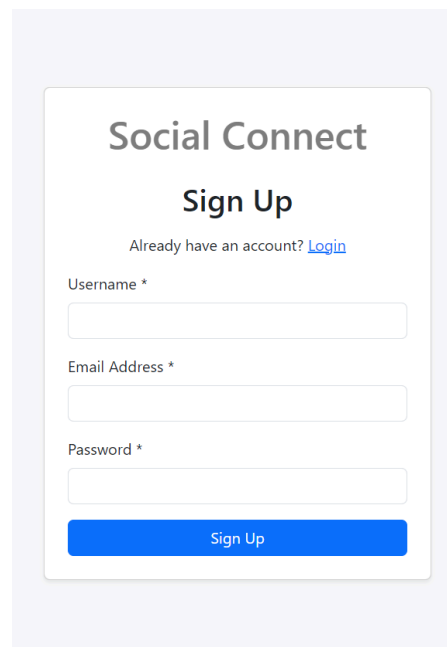

- Chat Functionality has been successfully implemented using socket-io.
- Successful creation of the login page.
- Design improvement in the chat, signup and login page has been made using bootstrap.

The screenshot shows a web interface for 'Social Connect'. At the top right are 'Login' and 'Signup' buttons. The main area contains a chat window with a scrollable list of messages: 'You joined', 'Abhi: Hello', 'null disconnected', and 'You: Hii'. Below the chat window is a text input field with the placeholder 'Type your message here...' and a green 'Send' button.

The screenshot shows the 'Login' page of the 'Social Connect' app. It features a white card with a light blue background. The card has the title 'Login' in bold. Below the title are two input fields: 'Email' and 'Password'. A blue 'Login' button is positioned below the password field. At the bottom of the card is a blue link labeled 'Register'.

The screenshot shows the 'Sign Up' page of the 'Social Connect' app. It features a white card with a light blue background. The card has the title 'Sign Up' in bold. Above the title is a link that says 'Already have an account? [Login](#)'. Below the title are three input fields: 'Username *', 'Email Address *', and 'Password *'. A blue 'Sign Up' button is positioned below the password field.

Plan for Next Week:

In the upcoming week, the focus will be on enhancing photo sharing capabilities, as we were only able to accomplish this partially:

- Adding a group chat feature.
- Adding Emojis to make chatting more expressive .
- Improving user interaction.
- .Implementation of photo upload functionality.

Blocking Issues:

Implementing photo and video sharing features was incredibly challenging since we couldn't find a solution for handling large media files without crashing the app.

Implementing chat functionality posed challenges, but they were resolved with some assistance.
